Next steps and report back mechanism	Further reports will be received following the releases of more detailed 2011 Census data.

1. Purpose of Paper

The aim of this report is to update the Strategic Partnership on the 2011 Census, specifically:

- The release of multi variable tables from the 2011 Census

2. Introduction and background

A census is a count of people and households, and is used to set policies and estimate the resources required to provide services for the population.

The information the census provides allows central and local government, health authorities and many other organisations to target

their resources more effectively and to plan housing, education, health and transport services for years to come.

More information about the 2011 Census can be found on the Office for National Statistics (ONS) website

www.ons.gov.uk/ons/guide-method/census/2011/index.html.

Specifically information about census data that has been or is scheduled for release can be found at www.ons.gov.uk/ons/guide-method/census/2011/census-data/2011-census-prospectus/index.html

The most accessible site for searching, viewing and downloading currently available 2011 census data for all available geographies is via Nomisweb's table finder

www.nomisweb.co.uk/census/2011/data_finder
