1	<p>Consultation on proposals for legal aid reform closed on 14th February. The consultation prompted more than 5000 responses.</p> <p>The proposals, if implemented are likely to result in the removal of local face to face social welfare, immigration and family law related services for local residents. In addition, implementation of the proposals will result in the termination of a significant funding stream for two voluntary sector providers and more than ten local businesses.</p>
2	<p>Strategic Director David Murray has met with the Partnership Chair and Partnership Manager to discuss the imminent challenges relating to advice need and provision in the city. Mr Murray will attend the next meeting to discuss formulating the action plan that will ensure the sustainable way forward.</p>
3	<p>The Partnership is hosting a 'Family Finance Day' in Bevendean Funplex on 19th March. Residents are invited to bring their children along for a free fun play session whilst they discuss money issues with staff and</p>

	<p>volunteers from a range of advice and information services.</p> <p>The Partnership will use the opportunity to survey residents regarding the financial challenges they face (e.g. around debt, accessing credit and insurance services) and the advice and information services they need.</p>
<p>Additional Information</p> <p>BHT and the Citizens Advice Bureau currently hold Social Welfare Law and Immigration Legal Aid contracts worth, in total, in excess of £1m per year. Strategic Housing Partnership

Name	Martin Reid
Your Partnership	Strategic Housing Partnership
Date of Meeting	15 February 2011
Date of next meeting	26 April 2011
3 key points to be communicated from the Partnership Meeting to the Brighton and Hove Strategic Partnership	
1	<p>Repairs on Prescription – The Council’s Private Sector Housing Section & Public Health are working together on a pilot scheme which helps vulnerable households who have health problems linked to their housing. The GP Referral service is now up & running and a large response has been received by the Private Sector Housing team which has resulted in enforcement action. A bid has been submitted for additional Department of Health funding to expand the scope of the current scheme.</p>
2	<p>Student Housing – The Council are looking to consult on additional licensing of small HMOs in areas of high pressure student housing in the city. Both universities are projecting shortfalls in student accommodation. While we are looking to manage some shortfall by joint working to facilitate new build student housing in certain major project sites and also through joint head leasing schemes to secure private sector housing for students there was felt to be the need for a more strategic LSP discussion on the impact of growth in student numbers across the city in areas other than housing alone.</p>

3	<p>Local Delivery Vehicle - The council have accepted the financial offer from Brighton & Hove Seaside Community Homes for leasing up to 500 council properties in exchange for a capital receipt. The company are currently negotiating with two lenders & are aiming for a positive outcome by 31 March.</p>

Your Partnership	Stronger Communities Partnership
Date of Meeting	3 rd February 2011
Date of next meeting	12 th May 2011
3 key points to be communicated from the Partnership Meeting to the Brighton and Hove Strategic Partnership	
1	<p>Strengthening Communities Review (SCR) - the meeting was pleased to welcome Mary Evans (ME) who updated the group on progress of the Strengthening Communities Review (SCR).</p> <ul style="list-style-type: none"> • The SCR has highlighted the importance of the SCP, the need for a strategic lead in the city on community engagement, and the value of the partnership being third sector led. • Part 1 of the SCR (which contained the principles for commissioning Community Development and CVSF) has been taken through the council's decision making processes and the BHCC Communities & Equality Team are now working through the commissions. • Part 2 of the SCR is about a wider mapping of engagement activity and in relation to this how the council needs to remove some of the duplications occurring in community engagement activity, and how it needs to join things up in ways that make sense to all city partners. • David Murray (DM) (Strategic Director for Communities) is particularly interested in how engagement with grassroots and the person on the street may practically work.
2	<p>City Performance Plan – A City Performance Plan to replace the Local Area Agreement is being developed. The plan will be for one year and will be agreed in June by the B&HSP. KB informed the group that the SCP has been asked to look through the outcomes and to consider, in the current climate of significantly reduced resources, which ones are still achievable and which ones are aspirational. The partnership considered this in detail and suggested some work to be done outside the meeting to respond effectively to the request. (Work progressing).</p>
3	<p>CEF Action Plan - Highlights from the activities undertaken include: - The Community Engagement Training, delivered by the TDC has received consistently excellent feedback and the learning and development team at the council plan to embed it into their core training</p>

	<p>programme. The council is looking to use the cross-sector approach to this training in all of its courses.</p> <ul style="list-style-type: none"> - The CEF group will reconvene the learning sub-group to pick up on the advice and guidance and case studies emerging from the training. - Speakout is producing an easy read version of the CEF. - The Democratic Services Team at the council have all been on the community engagement training and they are now doing more outreach in neighbourhoods. - The CEF was flagged up as being a key part of the recent council's equality assessment. - There is £1,000 in the budget for a strategic networking event, which has not yet been planned, although this money can be carried over to next year. - The next B&HSP development morning will be on the SCP and the CEF. - An update will go to scrutiny on the CEF soon. - Keeping a watch on anything to do with engagement, devolved budgets and localism as the SCP will need to think about how this activity could be coordinated.
<p>Additional Information</p> <p>Priority Action – A Handover Meeting is to be arranged to ensure the future support of the SCP and its programme of work going forward. This follows recent announcements that the current funding and support arrangements for the SCP will finish at the end of March 2011.</p> <p>Keith Beadle 01273 810238 keith@cvsectorforum.org.uk</p>

<p style="text-align: center;">1</p>	<p>David Murray BHCC Strategic Director, Communities David attended the meeting to introduce himself and explain some of the changes occurring in the council and the city at present. He highlighted that in the Intelligent Commissioning model the needs of people and communities are at the centre of planning.
